Warlike Actions on Part of the Japanese.

Russian Rifle Regiment Sent to Korea on Account of Disturbances.

## AMERICAN MARINES LAND

Choo, Jan. 6.—Eight thousand Japanese are reported as being ready to land at Massampho. Their landing probably means war.

A regiment of Cossacks is expected at Port Arthur, and the reserves are being moved from Blagovestchensk.

The position of the troops in Manchuria is being rearranged, but their location is being kept secret.

The Novi Krai emphatically affirms that "Manchuria is henceforth Russian, and will never be surrendered. At present the Russo-Japanese negotiations regard only Korea, and will end most favorably for Russia if the latter keeps a powerful fleet at Port Arthur and 300,000 bayonets in Manchuria, and warns Japan that any expectation of success over Russia is an idle dream.

RIFLE REGIMENT DISPATCHED. St. Petersburg, Jan. 6.—A semi-official dispatch to a news agency from Vladivostok and private information from Minsk state that, owing to disturbances between the Koreans and the Japanese in Korea, the Russian Second rifle regiment, at its full strength, has been dispatched to Korea to protect Russian interests.

AMERICAN MARINES LANDED. London, Jan. 6.—Bennet Buleigh, cables to The Daily Telegraph under date of Tokio, says:

"One hundred American marines arrived at Chemulpo and landed in order to proceed to Seoul.

"The outlook is very warlike. People are commenting on the absence of the Russian minister, Baron Von Rosen, from functions which have occurred in Tokio during the last two days."

## DEPARTMENT ENLARGED

ANOTHER ROOM ADDED TO THE BOYS' QUARTERS AT Y. M. C. A.

The quarters of the boys' department at the Y. M. C. A. have been enlarged by the enclosure of a hall from which the rooms open, which will greatly increase the facilities of the department.

Many boys are taking advantage of the privileges of membership and are enjoying the many features arranged for their amusement.

## SKATING GOOD

NUMBERS HAVE BEEN ON THE ICE IN THE PAST FEW DAYS.

Skating has been unusually good for the past few days and large parties have been on the ice in the sloughs about the city almost continuously. Last night a number took advantage of the moonlight and went skating. The lake at Wallace park is frozen over and has been especially popular. Today will perhaps end the sport, unless the weather turns cold again, as the ice is getting soft.

Whether it will be a free street fair or an enclosed carnival is yet to be settled.

The carnival association is composed of some of the best known men in Paducah. Mr. A. W. Greif is president and J. O. Flournoy secretary.

IN CIRCUIT COURT.

JUDGE REED ORDERS CLERK'S PRIVATE OFFICE KEPT CLOSED.

CONTRACT TO BE LET LATER

There will be a carnival in Paducah this spring, according to members of the Paducah Carnival Association, which gave a carnival last spring. Paducah last year had two carnivals, but the one in the spring was the one that attracted the most people and was the biggest success despite the bad weather of two or three days.

It has not yet been decided when the association will begin preparations for the carnival, but one member stated this morning that at an informal discussion a few nights ago it was decided that Paducah must have a carnival this spring and that preparations for it would begin at least February 1.

This will be somewhat later than usual but will not affect the success of the carnival, as surrounding towns and districts have learned to expect the carnival as a matter of course and will be looking out for this one.

## My Life

### Hung On a Single Thread With Heart Disease.

You should never wait until your life hangs in the balance before you give the necessary aid to your sick heart. A weak heart is always serious, for it affects every organ of your body through its inability to purify and keep the system supplied with pure, rich, life-giving blood.

Any indication of heart trouble, such as shortness of breath after exercise, redness of face, hot flushes, oppressed feeling in chest, weak, hungry spells, palpitation, dizziness, sudden starting in sleep, irregular pulse, is serious, and should be cured at once.

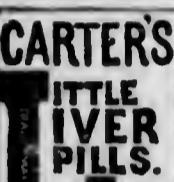

The safest and surest treatment is Dr. Miles Heart Cure, a nerve and muscle builder, a blood tonic. It acts directly on the heart nerves and muscles giving them strength and vigor, and relieves every symptom of a sick heart.

Your life depends upon your heart, and a weak, diseased heart, like a single thread, can endure but little.

I suffered for years with my heart. At first I hung by a single thread. A doctor friend and an eminent specialist treated me. With his knowledge of my doctor I took Dr. Miles Heart Cure. It lifted the pains from my heart, and caused a free circulation of blood. I am now able to attend to my affairs, something I had never done before I do again." —MIL JOHN KOELGES, 188 Clinton St., Cleveland, Ohio.

## TO GET A RAISE

POPULAR PADUCAHIAN'S SERVICES ARE APPRECIATED.

A Frankfort dispatch to the Courier Journal says: "The services of clever Ed Leigh are indispensable to an occupant of the executive chair and he will continue as private secretary to Gov. Beckham. The duties of this place are the most exacting of the minor offices, and his numerous friends over the state will back a movement before the general assembly to increase the pay allowed him. Gov. Beckham will also retain in his position Judge H. B. Hines, of Bowling Green, the present State Inspector and examiner. Judge Hines has filled the position for the past four years with much credit to himself.

There is much speculation as to whom Gov. Beckham has selected for the office of Assistant Adjutant General, and also rumors as to certain salary changes in prospect.

## COUGHING SPELL

### CAUSED DEATH.

"Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home, in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician, but before he could arrive, another coughing spell came on and Duckwell died from suffocation.—St. Louis Globe Democrat, Dec. 1, 1901." Ballard's Horsemouth Syrup would have saved him. 25c, 50c and \$1 at DuBois, Kolb & Co.

The victim was passing through Erlanger, Ky., Monday afternoon, along the railroad tracks, when he discovered the Blue Grass Flyer approaching. The train was over two hundred feet away when the man covered his eyes with his hands and deliberately lay down on the tracks. He was killed instantly.

Coroner Tarvin ordered the body removed to Ludlow, and Louis Louder claims the victim was Allie, son of William Sharp, of Georgetown, Ky. He was about thirty years old, weighed 200 pounds and was five feet ten inches tall.

## GORGES ARE FORMING

Will Thin Out the Ice But Not Help Navigation Much.

Gorges Reported Above and Below Evansville—Ice May Begin Sinking Soon.

## CUMBERLAND RIVER BOATS

The outlook in river circles is not encouraging, notwithstanding the fact that gorges have formed above and the ice is thinning out here.

A gorge is reported above and below Evansville and since yesterday the ice has been running lighter. This morning the river was comparatively clear of the heaviest of ice and by tomorrow, if the gorges hold, all ice will have run out. This will enable the boats in Cumberland river to come out with their tows.

"The weather has moderated some," a river man stated this morning, "and if it continues as warm as it is today, the ice will be rotten and with a slight rise we might get some relief in the Ohio. At present there are several boats in the Cumberland river unable to come out with tows on account of the heavy ice. The Butcher is due out today, but will come no further than Smithland unless the ice thins out more than at present."

## KAW INDIANS.

### WILL WIND UP THEIR BUSINESS AND GET MUCH PAY.

Arkansas City, Kan., Jan. 6.—Between January 1 and 9 a large part of the business of the Kaw Indians, as a tribe, will remain unclosed for some time.

It is announced that the payment will be made by the 9th of next month, and it will be a big one, because it is estimated that about 15 Kaws will withdraw from the tribe and be issued citizenship papers. These will receive \$900 per head. A full settlement will be made on all deceased Indian claims, which will amount to \$945 on each of the thirty claims. This means \$28,500 to be paid out in settling these estates.

The adults who do not withdraw from the tribe will receive one-tenth of the principal—\$90 and interest—making a total of \$135. There are 237 Indians on the roll, thirty of whom are dead. The fifteen who are expected to take out citizens' papers will receive a total of \$14,500.

Minor Indians will receive about \$45 each and are 70 in number, making another \$3,150 to be paid out. This leaves 132 Indians who are of age to draw the \$135, making \$17,820 more.

In all the payment will amount to about \$63,820, and it will vary but a very few dollars from this amount.

There is now some talk of a double payment, which would make the amount nearly double, but this is unlikely.

Those Indians who withdraw from tribal affiliations will be able to sell their surplus land, which amounts to 400 acres each. Speculators are ready to buy if the moment it is thrown upon the market.

The many friends of Mr. E. O. Yancey, who left here to go with the M. A. Mr. Yancey is one of the best drummers Paducah ever sent out, and his number of successful ones is legion.

Mr. Yancey, in a letter to The Sun, states that it was 25 below zero at Minneapolis Sunday, but that he and his family are enjoying it.

## IMPORTANT EVIDENCE

A Fire in the Iroquois Theater Two Weeks Before.

It Was Only By Chance That a Panic Was at That Time Averted.

## TIME FIRST SUITS FILED

Chicago, Jan. 6.—Evidence showing grosser criminal negligence than anything previously developed was given under oath yesterday in the fire department investigation of the Iroquois theater horror. Joseph Daugherty, who had charge of the curtain, swore that two weeks ago, during a matinee performance, there was a fire on the stage and when he attempted to lower the asbestos curtain it was stopped by the same obstruction that prevented its operation last Wednesday, the fatal afternoon.

The curtain manager declares that he protested at that time, but no attention was paid to his warning. In his opinion, if the curtain had been run down during the fatal matinee the lives of many, if not all, the victims of the disaster might have been saved. It was only by the merest chance that a panic was averted as the result of the first fire.

The skylight at that time, he said, was securely closed.

Two important witnesses were discovered in the persons of Charles F. Koeter and Henry Zander, real estate dealers. They were passing the Iroquois theater when the fire broke out and attempted to get into the theater. While smoke was issuing from the cracks in the front door, they were denied admission. They declare that the doors were kept closed by the ushers and attendants in the lobby for nearly five minutes after the fire was discovered on the stage.

The first damage suit against the proprietors of the Iroquois theater and the city of Chicago growing out of the fire has been filed by Ivy Owens as administrator of the estate of Miss Amy Owens and Mrs. Frances A. Owens, her mother.

The action is for the recovery of \$10,000 damages and is directed against the Iroquois Theater company, the city of Chicago and Will J. Davis and Harry J. Powers, managers of the theater.

Miss Owens was a teacher in the Curtis public school.

## RECEIVED INSTRUCTIONS.

### AND THEN THE DELEGATE LEFT FOR THE WEST.

Michael Remmel, first vice president of the National Brotherhood of Leather Workers on horse goods, was in the city last night to confer with members of the local union and receive instructions to be used in a meeting of the executive committee at Kansas City.

Mr. Remmel spoke to the men yesterday afternoon and matters of a private nature, which the unionmen refused to divulge, were discussed. Remmel left last night for Kansas City to attend the executive committee meeting and from Kansas City the committee will go to Chicago to complete arrangements by which amicable settlement of any differences may be settled without strikes and boycotts.

This move has been contemplated for some time but took active form only recently. The manufacturers appoint a committee to confer with the union committee to outline the plans for future settlements and hereafter boycotts and strikes in the leather workers' business will be things of the past, it is authoritatively stated.

### WEALTHY BREWER DISTRIBUTED SEVERAL MILLION BEFORE DEATH.

Milwaukee, Wis., Jan. 6.—Captain Frederic Pabst, whose funeral has just been held, on Christmas made gifts to every member of his family, said by his close friends to aggregate some \$6,000,000 or \$6,000,000. Captain Pabst fully realized that his illness would be fatal and that the end was not far off. To his wife and each of his four children he handed stock certificates and deeds representing, it is believed, something over \$1,000,000 in each case. The entire wealth of Captain Pabst is estimated at \$10,000,000.

THE DUTY OF CONGRESS.

President Roosevelt stated to congress the sum and substance of the whole Panama affair in the following:

"In conclusion let me repeat that the question actually before this government is not that of the recognition of Panama as an independent republic. That is already an accomplished fact. The question, and the only question, is whether or not we shall build an azimuthal canal."

This should make it plain to congress that there is no justification for taking up time in needless discussion of whether the United States did right or wrong in recognizing Panama. This, as the president explains, has already been settled by the president, who is willing to assume full responsibility for it, leaving nothing for congress to do but consider the Panama treaty. The quicker it does this and gets it settled, the sooner will preparations be made for beginning work on the canal.

Too many members of congress delay business by wrangling over dead issues, and taking up time that could be profitably devoted to something else in discussing the advisability of things that have already been done.

Therefore let the question of Colombia and Panama drop, and dispose of the Panama treaty. The Colombian incident is closed so far as this government is concerned. Panama is an independent government which has been recognized by this and other governments, and has signed a treaty with us. All that congress now has to do is to ratify that treaty and begin the canal.

Democratic politicians advance some peculiar reasons these days for their official acts as representatives of the people. Representative Clark, of McCracken, voted for Hon. Eli Brown for speaker, according to his own statement, because Mr. Brown gave Captain Clark his seat up front at the 1902 session. Of course it was very nice in Mr. Brown to give Captain Clark, who is quite an aged gentleman, his seat near the speaker and most commendable in Captain Clark to remember it, but just what this had to do with Mr. Brown's fitness for the

## SONGS OF THE DAY

UNDER THE SNOW.

Ah, sadly I turned and saw,  
The snow sweep over her breast,  
As the angry wind and raw  
Blew out of the frozen west.  
Morning, I saw the snow  
Blow over her where she lay.  
The girl wasn't dead, eh, no!  
I had tipped her out of a sleigh.

A NIGHT OF KOROR

CALIFORNIA GIRL'S EXPERIENCE  
WITH TARANTULAS.

Basketful of the Venomous Creatures,  
Gathered by Small Son of Her Host,  
Frighten Young Lady Visitor Into a  
Serious Illness.

It was a strange, fearful experience that Miss Hitchcock, a beautiful young California girl, had as a welcome home to her native state after three years spent in school in Paris, says the New York Herald. How she escaped a terrible death is a mystery, but although she received no injury, she sustained a shock that made her ill many days and lived through a night so full of horror that the memory of it will never fade from her recollection.

During one long night she was besieged by hideous tarantulas, whose bite is death. They crawled and wriggled all about her. They were on her face and arms, and when she tried to escape from the room they were under her feet and forced her to retreat again to the bed.

She was stopping at the home of some friends in Los Angeles on the night of her arrival. She was awakened in the middle of the night by some bristling, fuzzy thing crawling over her face. She struck the object away. She dropped her hand and it fell on some other hairy, wriggling insect. She was badly frightened and stepped from the bed, and her bare foot fell upon some coarse, wriggling creature, and another one brushed against her ankles.

She cried out, but her room was in a wing of the house removed from the part of the mansion where the other members of the household and the servants slept and no one came to her aid.

She plunged back into bed, and her face as it touched the pillow came in contact with another of the mysterious visitors that had so alarmed her. She pulled the bedclothes about her, but the night was warm, and she was forced to throw them off, and then the horrible, wriggling, hairy disturbers of her sleep swarmed over her. All night she sat screaming and trembling and striking at the mysterious objects that assailed her. When morning came the family heard cries and rushed to her room, to discover that she was besieged by tarantulas. The loathsome creatures were crawling all over the bed and about the room. Miss Hitchcock's host secured a cane and killed all of the tarantulas and then the young woman promptly fainted and was ill for several days before she finally recovered from her fright.

The explanation of how the tarantulas came to be in Miss Hitchcock's room could not be ascertained at first. The case was a great mystery until a small boy in the family was observed to be in some distress. It was taken into the inquisition and his father interviewed him at some length. Then the mystery was solved. The small boy had secured the tarantulas in a vacant field. A curio firm in Los Angeles who kill and mount the insects pay a royalty of 5 cents apiece for them, and the boys of the town go out into the fields and catch them with pliers.

The boy in the family where Miss Hitchcock was staying had rounded up forty or fifty of the insects. He put them in a big basket and took them home. Rightly conjecturing that his family would raise a protest against their home being made a pestilential for tarantulas, the small boy had hidden his basket in Miss Hitchcock's room, not knowing it was going to be occupied. The tarantulas during the night had tunneled their way to freedom, but not being able to escape from the room had turned their attention to assaulting Miss Hitchcock.

The vigorous discipline applied to the small boy by his father when the facts in the case came out caused him to loathe tarantulas with a deep and deadly loathing, and now when they are even mentioned in his presence he grows sad and hastily slides for the outer air.

Salaries of Legislators.

Congressmen of the United States are better paid than any other legislators, receiving \$5,000 a year, mileage and stationery funds. Australia allows its senators and members of the house of representatives \$2,000 a year without distinction. New Zealand differentiates. The duties of the lower house being of a more exacting description than those of the upper, its members receive \$1,200 annually, as against \$750 paid to those of the other assembly. Senators of the Canadian parliament are rewarded with \$1,500 a year salary and expenses at the rate of \$10 a day during the session, with a maximum of \$1,500. Cape Colony is not so open-handed. Its legislative council and house of assembly drawing \$5 a day per man.

Patriotic Breton Fishermen.

An interesting scheme has been launched with the view of alleviating the misery caused by the failure of the sardine fisheries off the coast of Brittany. It consists in the emigration of the Breton fishermen to the shores of Algiers and Tunis where the fish is so abundant that one Sicilian fleet of 2,500 boats employs over 12,000 men. Already several hundred Breton families have landed in their names at various towns and villages; but danger of the scheme failing lies in the absurd level of country, for nearly all the laborers to be found in the colony is not open-handed. Its legislative council and house of assembly drawing \$5 a day per man.

## Weakness in Men

A Michigan Specialist Finds an Easy Way to Cure Any Case of Sexual Weakness Even in the Oldest Men. This Wonderful Cure Has a Most Marvelous Record of Successes.

## SENT FREE TO ALL WHO APPLY IN WRITING

There are thousands of cheerless homes in this country filled with discontent and unhappiness, lacking in love and companionship through the sexual weakness and physical impairment of a man whose years do not justify such a condition. Indiscretions, abuse and recklessness often cause a temporary cessation of vital power that instantly yields to the wonderful treatment discovered by the great specialist, Dr. H. C. Raynor, of Detroit, Michigan. It has remained for this great physician to discover that sexual weakness and similar troubles can be cured and in remarkable short space of time. This treatment does not rule the stomach, adding the miseries such injury entails, but it is a new treatment that easily and quickly restores youthful vigor to men as old as 85.

The discovery is beyond doubt the most scientific and comprehensive that our attention has ever been called to. From all sides we hear private reports of cures in stubborn cases of sexual weakness, enlargement of the prostate, varicocele, spermatorrhea, lost manhood, impotency, emasculation, premature, shrunken organs, lack of virile power, bashfulness and timidity and like unnatural conditions. It does this without appliances, vacuum pumps, electric belts or anything of that kind. Satisfactory results are produced in a day's use and a perfect cure in a short time, regardless of age or the cause of your condition.

The lucky discoverer simply desires to get in touch with all men who can make use of such a treatment. They should address him in confidence, Dr. H. C. Raynor, 161 Lucy Building, Detroit, Mich., and immediately on receipt of your name and address it is his agreement with this paper to send you a tree receipt or formula of this modern treatment by which you can cure yourself at home.

## LOST PEOPLE IN LONDON.

Thousands Annually Disappear From the Great Metropolis.

In the year 1901, the latest for which statistics are available, no fewer than 35,033 persons were reported missing to the London metropolitan police. Even if we make all reasonable deduction for aged and imbecile people who have wandered out of their way, and children that have been lost through the carelessness of servants of their own mischievous propensities, there will still remain a body of some thousands of persons who annually disappear from the view of their friends.

Moreover, there is in London a considerable number of men and women who, practically speaking, have no friends, or at least they have discontinued correspondence with their relatives and live quite alone in London. The number of these who disappear is beyond computation.

Everybody has known instances of people disappearing from their circle, but the probability is that such an occurrence is followed by the smirking gentleman or lady turning up somewhere else, so that it is liable to raise any suspicion of suicide, mental aberration or crime. Country Life.

## MILLIONAIRE'S POOR STOMACH.

The worn out stomach of the overfed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been favorite household remedy for all stomach troubles for over thirty-five years.

August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what you eat. Trial bottles, 25c; regular size, 75c. For sale by Dr. Bals, Kalb & Co.

## SUICIDES ON "BLUE MONDAY."

Good Reason for Housewives Being in Bad Spirits.

A scientist who has made a study of suicides has discovered that more women commit suicide on Monday than on any other day of the week.

Monday, "Blue Monday" as it has long been called, is one of the most trying days of the week for women who are housewives, principally because it is "washday." Breakfast is usually served earlier than on other days and more hurriedly prepared. The children are early hurried off to school and dinner is often "pleked up." "Blue Monday" is the one day in the week when a housewife's troubles, hard work, and annoyances seem to come all at once. It is the significant name for the first working day of the week.

## NEWS OF RAILROAD

### Officials Deny That the Chief Dispatcher Comes Here.

Assistant General Manager W. J. Harshan is in the City Today on Business.

### SOME MINOR CHANGES

The report that Chief Dispatcher E. E. North, of the Louisville division of the Illinois Central, would move his office to Paducah from Louisville, is denied by the officials, including Supt. Egan who, it was said would also move his office here. No trains are dispatched from Paducah further up than Central City, and those between Louisville and Central City should be moved to Paducah, 99 miles from the nearest point on their district. The rumor was only a "smoke up."

Mr. Charles Harton, the local I. C. stockhouse keeper, has been transferred to Fulton under Foreman Jack Honser. He will act as chief clerk under Mr. Honser and the change is effective today. Mr. John Clark, of Henderson, a brother of Chief clerk U. H. Clark, has succeeded Mr. Harton.

Mr. W. H. Mustaine, the local I. C. ticket agent, has begun selling tickets to Nashville via Hopkinsville over the newly completed Tennessee Central road. This arrangement with the Tennessee Central was effected a short time ago and gives the I. C. the first entrance into Nashville and Clarksville.

W. J. Harshan, assistant general manager of the I. C., arrived in the city today at noon from the south in his private car. He will remain here a short time on business and will go east.

Mr. Coleman Boyd, of Muttawau, has accepted a position in the local I. C. yard department.

### GERMS THAT MULTIPLY FAST.

In Three Days One Microbe Will Grow to 4,772 Billions.

We can get on the good side of a dog by patting his head and we can please the cat by scratching her under the chin (if she doesn't scratch first). We can tame other animals by giving them food or by putting the weight of our hand on them. If they won't be petted or tamed we can pick up a rock and let them have it between the eyes.

But when a creature has no tail to wag and nothing to bark with, how can we, without getting a crack in the neck, stoop down far enough to say "Pretty microbe" to something that is as big as a grain of sand and is to "Me Blame."

If it comes to exterminating them, what chance have we with a creature that every two hours breaks into two pieces, each of which is a perfect organism, ready in another two hours to break into two again, and so on and so on until in three days the progeny of one single bacterium numbers 4,772 billions? Nobody can keep up with that rate of increase.

Of all the discoveries made by science it seems to me that the most disheartening is the discovery of gorms.—Everybody's Magazine.

### CUSTOM OF RUSSIAN GIRLS.

Device for Ascertaining Times of Coming Good Fortune.

When young Russian girls are anxious to know if they will be married (and what young girl is not anxious to know that?) several of them assemble, each wearing a ring. A large basket of corn is brought in and each girl drops her ring carefully, stirring up the corn the while. Then a hungry hen is introduced and whichever bird's ring is first discovered will be the first one married. In the marshes of the North sea coast it was formerly customary in Germany for the bridegroom to give the bride on the day of betrothal, instead of a ring, a valuable coin, called "echle," or genuine, as a pledge that the compact between them was binding. This is also a remnant of the time when wives were acquired by right of purchase and the custom is still prevalent in some isolated places.

### WHAT HE WAS THINKING OF.

Amateur Scientist Puzzled by Two Simple Facts.

"What are you thinking off?" she softly asked, a faint blush deepening the beautiful color of her soft, dimpled cheeks. He had been looking at her in a dreamy way, without appearing to notice that she glanced up every little while and then permitted the long curling lashes to veil her splendid eyes again. Her question brought him suddenly to himself, and he realized how rude he had been to stare at her so. "I—I was just thinking," he answered, fumbling helplessly, "how funny it is that the beautiful diamonds sparkling on your breast and the streak of soot on your nose are composed of the same thing."

### KNOWS NOW

DOCTOR WAS FOOLED BY HIS OWN CASE FOR A TIME.

It's easy to understand how ordinary people get fooled by coffee when doctors themselves sometimes forget the facts.

A physician speaks of his own experience:

"I had used coffee for years and really did not exactly believe it was injuring me although I had palpitation of the heart every day."

"Finally one day a severe and almost fatal attack of heart trouble frightened me and I gave up both tea and coffee, using Postum instead and since that time I have had absolutely no heart palpitation except on one or two occasions when I tried a small quantity of coffee which caused severe irritation and proved to me I must let it alone."

"When we began using Postum it seemed weak—that was because we did not make it according to directions but—now we put a little bit of butter in the pot when boiling and allow the Postum to boil full 15 minutes which gives it the proper rich flavor and the deep brown color."

"I have advised a great many of my friends and patients to leave off coffee and drink Postum. In fact I daily give this advice." Name given by Postum Co., Battle Creek, Mich.

Many thousands of physicians use Postum in place of tea and coffee in their own homes and prescribe it to patients.

## THE OLD FOLKS AT HOME

Are Never Without Peruna in the House for Catarrhal Diseases.

### MR. AND MRS. J. O. ATKINSON, INDEPENDENCE, MO.

UNDER date of January 10, 1897, Dr. Hartman received the following letter:

"My wife had been suffering from a complication of disease for the past 25 years.

"Her case had baffled the skill of some of the most noted physicians. One of her worst troubles was chronic constipation of several years' standing.

"She was also passing through that most critical period in the life of a woman—change of life. In June, 1895, I wrote to you about her case. You advised me to take a course of Peruna, which we at once commenced, and have to say it completely cured her. She firmly believes that she would have been dead only for these wonderful remedies.

"About the same time I wrote you about my own case of catarrh, which had been of 25 years' standing. At times I was almost past going. I commenced to use Peruna according to your instructions and continued its use for about a year, and it has completely cured me.

"Your remedies do all that you claim for them, and even more. Catarrh cannot exist where Peruna is taken according to directions. Success to you and your remedies."

John O. Atkinson, Independence, Mo.

When old age comes on, catarrhal diseases come also. Systemic catarrh is almost universal in old people.

This explains why Peruna has become so indispensable to old people. Peruna is their safe-guard. Peruna is the only remedy yet devised that meets these cases exactly.

Such cases cannot be treated locally; nothing but an effective systemic remedy could cure them. This is exactly what Peruna is.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

# SSS THE BEST TONIC

In S. S. S. Nature has provided a tonic suited to every requirement of the system when in a debilitated, run down condition. It contains no strong minerals or drugs, but is a pleasant vegetable preparation. You can find no better remedy for toning up the nerves and bringing refreshing, restful sleep when in a low state of health, or sick and worn out with work or worry.

S. S. S. improves the appetite, aids the digestion and reinforces the system, and its good effects are seen almost from the first dose. It acts promptly in cases of chronic dyspepsia, indigestion and all stomach troubles, and does away with the uncomfortable fullness, nausea, shortness of breath, and drowsiness and dizziness that so often come after eating.

S. S. S. is not only the best tonic but possesses alterative or purifying properties, and if there is any tumor or poison in the blood it searches it out, and removes it. Many times a low state of health is due to a bad condition of the blood and can only be remedied by a blood purifier and tonic combined, or such a remedy as S. S. S.

If you suffer from debility, insomnia, nervousness, loss of appetite, bad digestion, or any of the symptoms of a disordered blood, nothing will so soon put your blood in good condition, invigorate and tone up the system as S. S. S.

### The Tact of Max O'Reilly.

"When Max O'Reilly came to Montreal some years ago," said a man from that city, "we fixed up a little joke on him. We had noticed how gracefully he could unite a caustic criticism with a compliment, a faculty that enabled him to say the sharpest things without offending the people he was criticizing. We were going to put that faculty to a test.

"We bad him lunch with us, and there were at the table, beside himself, an Englishman, a Scotchman, an Irishman and a French Canadian. When we got our guest off his guard, we demanded an honest opinion of the different races we represented. As the opinion had to be given in the presence of all four, the situation for him was a rather delicate one. But it never seemed to trouble him, and he gave his opinion without a moment's hesitation.

"The Scotchman," he said, and he clenched his right hand tightly and pretended to try and force it open with his left. "The Englishman—, and he went through the same performance, opening the hand at the end after an apparent struggle. The Irishman—, and he held up his hand wide open, with palm upwards. The Frenchman—, and he made a motion with both hands as if he were emptying them on the table.

"There was not a word of explanation, but we all understood thoroughly, and had a hearty laugh. Max O'Reilly had maintained his reputation."—Detroit Journal.

### Nature's Good Reason.

Every little minx  
Thinks she is a sphinx.  
And as far as men go there is ample  
truth in what she thinks.

Even the wiser man  
(Tho' his knowledge spans  
All the distance life has traveled since  
the mighty world began)

Cannal boy is known  
Every little man  
(Five feet two, including heels and hair  
alright or velvet bow)

Never can you guess  
What a woman does  
May contain by way of honor, fortitude  
and tenderness!

Surely, that is best  
For his peace yet rest,  
Nature doubtless would not  
any other fashion, best

There appear a dearth  
Bodily, on earth,  
Dearth of men, as a dearth of living when  
they fathomed some man's worth.

# FIVE TRIPS TO THE WORLD'S FAIR FREE

## To Be Given By the Sun

The Sun has inaugurated the greatest contest ever given in Paducah.

It proposes to send five people to the World's Fair at St. Louis next summer, free of expense to themselves.

Who shall have these trips will be left to The Sun's readers, and the selections will be made by votes cast with ballots to be printed in The Sun each day.

### HERE IS THE PLAN:

The most popular school teacher, lady or gentleman.

The most popular clerk in a wholesale or retail establishment, lady or gentleman.

### THE CONTEST ENDS APRIL 30.

A study of the schedule of votes below will show you the value of advance subscriptions. Subscriptions paid in January will entitle the subscriber to just four times the number of votes the same subscription will be entitled to in April, the last month of the contest. Subscriptions paid in February, three times, in March two times.

Subscriptions for three months will entitle the subscribers for more than three times one month, six months for a good deal more than six times, and twelve months for much more than twelve times. # THE STROLLERS

By FREDERIC S. ISHAM,  
Author of "Under the Rose"

Copyright, 1902, by THE BOWEN-MERRILL COMPANY

A great blundering fly had just bobbed  
into the net, and the spider, with  
idleons, carnivorous zest, was serenely  
fixing it when the guardian of the  
inner returned with the family solicitor,  
a little man who bore in his arms a  
bundle of papers, which after the cus-  
tomy greetings he spread upon the  
table. He helped himself to a glass of  
burgundy and proceeded forthwith to  
enter into the history of his trust.

He peered over the coin and sent for  
his attorney. His soul passed away,  
marred by Little Thunder until the  
will was read, when his lamentations  
ceased. He soundly berated himself  
the patron in his coffin and refused to  
go to his burying. Then he became an  
ardent auttreter, a leader of "bolters,"  
a thunderer of the people's cause, the  
devoted enemy of land barons in general  
and one patron in particular, the  
delightful heir to the manor.

"But let him thunder away, sir," said  
Scroggs soothingly. "The estate's yours  
now, for the old patron can't come  
back to change his mind. He's turned  
sure enough in the grave, a dark and  
solitary spot as befitting his disposition,  
but restful within. Aye, and the  
mortal slab above him, which re-  
minds me that only a month before he  
took to his bed he was smoking his pipe  
on the porch when his glance fell upon  
the lifting stone. Suddenly he strode  
toward it, bent his back and raised it  
a full two inches. 'So much for age!'  
said he, scoffing like. But age heard  
him and now he lies with a stone on  
him he cannot lift, while you, sir," to  
his listener deferentially, "are sole heir  
to the estate and to the feud."

"A fond goes with the property?" re-  
marked Manville carelessly.

"The tenants object to paying rent,"

replied Scroggs sadly. "They're a sorry  
lot!"

"Evade their debts, do they?" said  
the land baron languidly. "What pre-  
sumption to imitate their betters! Think  
won't do. I need the money."

"They claim the rights of the land  
lord originated in fraud!"

"No doubt!"—yawning—"my ancestors  
were rogues!"

"Oh, sir!" deprecatorily.

"If the tenants don't pay, turn them  
out!" interrupted Manville listlessly.

"If you have to depopulate the country."

Having come to an understanding  
with his client, the lawyer arose to take  
his departure.

"By the way," he said obsequiously,  
selecting a yellow, well worn bit of  
paper from his bundle of documents.  
"It may interest you to keep this your-  
self. It is the original deed for all those  
lands from the squaw Powsaw. You  
can see they were acquired for a few  
shillings' worth of 'wet and dry goods'  
and seventeen and a half ells of duck-  
feathers."

"The old patroons could strike a rare  
bargain," muttered the heir as he easily  
surveyed the ancient deed and then,  
tucking it, placed it in his breast  
pocket. "For a mere song was ac-  
quired!"

"A vast principality," added the so-  
lidor, waving his hand toward the dis-  
tance and meadows far in the dis-  
tance.
